

Payments

Collect and manage all your payments directly from BRS GOLF with our new payment processor, Payments. The system has been specifically designed for golf clubs and allows you to manage all your online transactions through BRS GOLF – no more logging into your merchant account. Manage everything in one place.

Key benefits

- Control payments directly from BRS GOLF and link them to bookings
- Quick, easy setup
- Take card payments over the phone with our online virtual terminal
- Email a link to your customer for them to pay at their own convenience
- Improved visitor checkout experience – visitors can pay directly in BRS GOLF without being redirected to a third party
- No more queues in your pro shop as visitors wait to pay
- Refund payments at the click of a button
- Keep track of all your transactions, invoices, refunds and payouts
- Reliable payouts made to your bank account every seven days
- Support when you need it from the BRS GOLF support team

Frequently asked questions

Is Payments safe and secure?

Payments is powered by Stripe who has been audited by a PCI-certified auditor and certified to PCI Service Provider Level 1. This is the most stringent level of certification available in the payments industry.

What if we already have a payment gateway set up?

If your club is already using an online payment gateway with the BRS GOLF merchant module, (Sagepay, Worldpay or Realex) you can still switch to Payments. We recommend you first check any contract you may have with your existing provider.

Can I use Payments for all transaction types?

Payments currently works with online payments but we don't yet offer card terminal support. However, you can use Payments for online transactions, and another merchant provider for card terminal support.
