

EVERYTHING YOU NEED TO KNOW

In the coming week we will be transitioning over to BRS Golf. The new system offer a lot of benefits for both members and our administration staff

- The way you access the member portal and book into timesheets will change. To make this a smooth transition please follow the steps below.

1. REGISTRATION

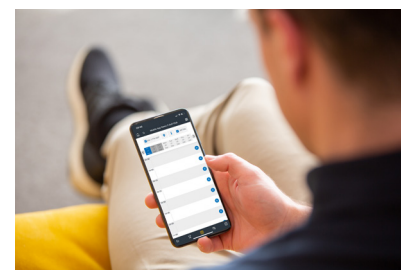

- You will receive an email from us with some details on how you can register for BRS Golf. Your unique username will be listed in the email – please only use the unique username listed in the email.
- You will be required to enter some details and set up a password.

2. VERIFICATION

- Once you have submitted the form, the club will verify your account. This may take a couple of days so please be patient. Once your account is verified you will receive another email confirming your account is active.
- You can now login to the member portal section of the website and start booking into tee sheets and competitions.

3. APP ACCESS

- To access the timesheets and complete your scorecard you will need to download the free BRS Golf Booking App and BRS Golf Scoring App from the App Store or Google Play.
- The login for the BRS Golf Scoring App is the same as your login setup in step 1. If you would like some more information on the apps you can view a short video [here](#).

Book your casual and competition rounds easily online

Stay informed about club news and competition results

The free booking and scoring apps are available for iPhone and Android devices
